Forecast for Tuesday 14 Nov 2023

Weather: Cloudy with scattered light showers overnight. Northern parts will start dry with bright spells in the morning as with a few showers continue over the rest of the area. More frequent showers or longer spells of rain spread north through the afternoon. All precipitation falling as sleet or snow above 900m.

Chance of cloud-free hill tops above 800m: 20% but 40% in the north

Low Cloud and visibility: Extensive cloud around 400-600m will linger throughout the day with the occasional shower lowering the visibility further at times.
